How to read departure or "Partenze" board

Train #: Your train number is the most important information: Look for it first on the Departure or "Partenze" board.

Your destination: Your destination may not be listed under "destination" on the board; for example, if you are going to Florence but the train's final destination is Milan. Verify the train number matches your ticket.

Train door closure: Board in advance, as train doors close to passengers one minute prior to departure on high-speed Freccia trains, InterCity and InterCity Notte trains.
